TERRACLIP

Safe contact with the compact earthing clamp

The small active earthing clamps in the 70 series have very hard and sharp jaws. The compact clamp has a high closing force, ensuring a secure connection for potential equalization at all times. The 70HK is specially designed for earthing BIG-BAGs with 2 clamps.

Advantages at a glance

- › compact size
- › suitable for mounting on smaller containers, or BIG-BAG (70HK)
- › hard and sharp clamp jaws
- › permanently high clamping force
